Varco Pruden Buildings  
Oakland Metal Buildings, Inc.  
American Buildings Company  
NCI Building Systems, Inc.  
Ruffin Building Systems, Inc.  
Schulte Building Systems, L.P.  
Steel Built Corporation  
Precoat Metals  
Behlen Building Systems

"I am honored to be working with this team of industry leaders," says Chuck Haslebacher, MBMA Chairman. "The board will continue to address industry issues during this challenging construction market."

MBMA has served metal building systems manufacturers and suppliers for 53 years. Its membership represents more than \$1.9 billion in annual steel shipments and accounts for approximately 39% of the total non-residential low-rise construction market in the United States. MBMA provides engineering leadership through the many research programs that it sponsors annually, often in coordination with major universities and engineering schools throughout North America. This research is used to improve the performance, efficiency and quality of metal building systems and to elevate the technology used to produce them.
